Dr. Lambertson,
Department of Physiology,
University College of London,
Gower Street,
London. W.C.1.

Dear Sir,

Further to our telephone conversation of even date, we have pleasure in enclosing herewith two leaflets which we have available in connection with pressure bottles.

These were made by our associates Messrs. Reynolds Tube Company Ltd., of Hay Hall Works, Tyseley, Birmingham.

The writer has been in touch with Mr. Stone, the Sales Manager of Reynolds, and he is arranging to send all further data, and if possible two sample bottles as near to the size you mentioned to me as possible.

Should there be any further information you require perhaps you would care to get in touch with this office, or our associates, Reynolds Tube Company at the same address. The gentlemen concerned are Mr. Moore, or Mr. Clark, both of whom will be only too glad to give you every assistance.

Yours faithfully,
T. I. ALUMINIUM LTD.

J.D. SCOTT. *Encl.*
NORTH LONDON AREA SALES MANAGER.
